Drag and Drop Exercise

Dear Students

Given below is a list of products where micro-organisms are used in producing them on a industrial level. Study the table carefully and fill in the blanks by dragging terms from the list into the proper block. Enjoy the game and evaluate your understanding. Happy joyful learning.

Trichoderma polysporum Monascus purpureus Aspergillus niger

Lactobacillus Clostridium butylicum Propionibacterium sharmanii

Saccharomyces cerevisiae Acetobacter Penicillium roqueforti

Streptococcus

	Product	Organism
1	Swiss Cheese	
2	Fermented Beverage	
3	Citric Acid	
4	Butyric Acid	
5	Streptokinase (clot buster)	
6	Cyclosporin A (immunosuppressant)	
7	Statin (blood cholesterol lowering agent)	
8	Roquefort cheese	
9	Curd	
10	Acetic acid
