

Descomposición de números

Diagram illustrating the decomposition of the number 9 using a house-shaped structure and addition equations.

The central structure is a house with a red roof and a chimney. The number 9 is written in a box above the roof. Below the roof is a vertical line with a horizontal bar at the top, forming a frame for a number line. The number line is divided into two columns by a vertical line, with the number 9 at the top. The number line is divided into five equal segments, each containing a horizontal bar.

Surrounding the central structure are addition equations in boxes:

- Left side:
 - $0+9$
 - $1+8$
 - $2+7$
 - $3+6$
 - $5+4$
- Right side:
 - $9+0$
 - $8+1$
 - $7+2$
 - $6+3$
 - $4+5$
