

MULTIPLICACIÓN

$6 + 6 + 6 + 6 + 6 + 6 + 6 + 6 + 6 = 54 \rightarrow 9 \text{ veces } 6 = 54 \text{ es decir, } 9 \times 6 = 54$

1. Ahora trabajamos en el tablero Mckinder para completar la tabla del 9.

$9 \times 0 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$9 \times 1 = \underline{\quad}$

$9 \times 7 = \underline{\quad}$

$9 \times 2 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$9 \times 9 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

$9 \times 5 = \underline{\quad}$

2. Resuelve las multiplicaciones.
