

Commutative Addition

Use the commutative property of addition to write an addition to solve.

$$3 + 7 = \square$$

$$= \square$$

$$4 + 5 = \square$$

$$= \square$$

$$1 + 8 = \square$$

$$= \square$$

$$2 + 9 = \square$$

$$= \square$$

$$5 + 3 = \square$$

$$= \square$$

$$8 + 0 = \square$$

$$= \square$$

$$9 + 6 = \square$$

$$= \square$$

$$7 + 6 = \square$$

$$= \square$$

$$8 + 1 = \square$$

$$7 + 3 = \square$$

$$5 + 4 = \square$$

$$9 + 2 = \square$$

$$6 + 7 = \square$$

$$3 + 5 = \square$$

$$0 + 8 = \square$$

$$6 + 9 = \square$$
