**Part 4
Reading**

Read the passage and decide whether the following statements are True (T) or False (F).

Watching TV is an interesting and fun activity. The word television is often shortened to TV.

The first television broadcast in Australia was in 1956. Back then, the pictures on a TV were black and white only. Television has changed a lot since then.

On TV you can watch many different programmes about a wide range of things. Some examples of TV programmes are news, current affairs, sitcoms, cartoons, dramas, reality shows, sports, documentaries and soap operas.

Most programmes on television are episodes that are part of a series. These episodes usually last for either 30 minutes or a full hour. On the weekend there are sometimes movies on TV that you can watch, instead of going to the cinema.

You can learn a lot from watching TV, but you should not watch too much or you will hurt your eyes.

1. It is boring to watch TV.
2. The first Australian TV broadcast was in 1956.
3. There are few programmes on TV.
4. Episodes on TV usually last for less than 30 minutes.
5. If we watch TV too much, we will harm our eyes.
