An \_\_\_\_\_ is a corrective surgery of the jaw and face

### Listen to the conversation and fill in with the missing words

Patient: I have a question about your 1

Dentist: Okay.

Patient: I have children, ages six and twelve. Do you offer services in 2

?

Dentist: Yes. But, I don't work with children. I specialize in 3

Patient: Okay. Well, I think my twelve-year-old son needs 4

Dentist: I'm afraid no one here works in 5

Patient: In your ad, I saw that you took care of dental irregularities.

Dentist: Yes, but in prosthodontics - dentures and implants. No worries, though. I can make a 6

Patient: I'd appreciate that. Thanks.
