- d. Two tablespoons of cough syrup at night.

4) "Take two of these tablets every 8 hours"

- a. True
- b. False
- c. Doesn't say

Pharmacist: Welcome to Smith's Pharmacy. Can I help you?

Woman: Yes, please. I have a terrible cold. What medicine do you recommend?

Pharmacist: What are your symptoms?

Woman: I have a sore throat, a runny nose, and a terrible headache.

Pharmacist: I see. How long have you been feeling like this?

Woman: I have been feeling sick for two days. What can I take for my sore throat?

Pharmacist: You can take two tablespoons of this cough syrup at night.

Woman: Do you have something for my headache?

Pharmacist: Of course. Take two of these tablets every 8 hours. Your runny nose will clear once your cold is gone.

Woman: You are very helpful.

Pharmacist: It's my pleasure! Now, take your medicine, get plenty of rest, and you'll be back on your feet in no time.

Woman: Thank you very much. Have a nice day!

Pharmacist: You too!
