

FRACTION DECIMAL EQUIVALENTS

DIRECTIONS: CHOOSE THE BEST ANSWER. YOU MAY USE YOUR NOTES.

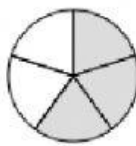

1. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

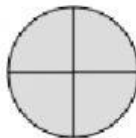

Which decimal and fraction are represented in Model 2?

a. 0.3 and $\frac{3}{10}$	b. 0.3 and $\frac{3}{5}$
c. 0.6 and $\frac{3}{5}$	d. 0.6 and $\frac{3}{10}$

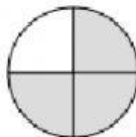

2. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

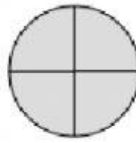

Which decimal and fraction are represented in Model 2?

a. 0.5 and $\frac{3}{4}$	b. 0.75 and $\frac{3}{4}$
c. 0.75 and $\frac{1}{4}$	d. 0.5 and $\frac{1}{4}$

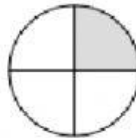

3. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

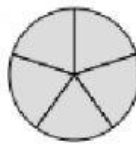

Which decimal and fraction are represented in Model 2?

a. 0.25 and $\frac{1}{4}$	b. 0.5 and $\frac{3}{4}$
c. 0.5 and $\frac{1}{4}$	d. 0.25 and $\frac{3}{4}$

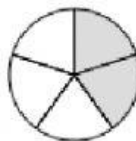

4. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

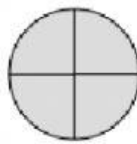

Which decimal and fraction are represented in Model 2?

a. 0.4 and $\frac{2}{10}$	b. 0.2 and $\frac{2}{10}$
c. 0.2 and $\frac{2}{5}$	d. 0.4 and $\frac{2}{5}$

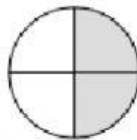

5. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

Which decimal and fraction are represented in Model 2?

a. 0.25 and $\frac{2}{4}$	b. 0.5 and $\frac{2}{8}$
c. 0.5 and $\frac{2}{4}$	d. 0.25 and $\frac{2}{8}$

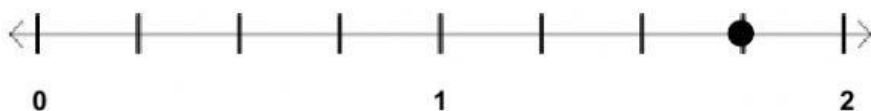

6. A point is shown on the number line. (Remember to count your lines ticks on the number line).

Which two numbers are shown by this point?

0.3	$\frac{4}{11}$	0.4	$\frac{3}{10}$	$\frac{3}{9}$
-----	----------------	-----	----------------	---------------

7. A point is shown on the number line. (Remember to count your lines ticks on the number line).

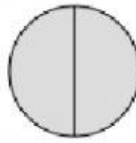

Which three numbers are shown by this point?

1.75	$\frac{7}{4}$	0.875	$1\frac{3}{4}$	1.25
------	---------------	-------	----------------	------

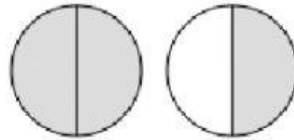

8. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

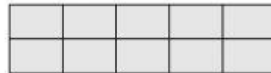

Which decimal and fraction are represented in Model 2?

a. 3.4 and $\frac{3}{4}$	b. 0.75 and $\frac{3}{4}$
c. 1.2 and $1\frac{1}{2}$	d. 1.5 and $1\frac{1}{2}$

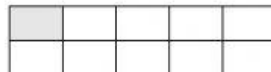

9. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

Which decimal and fraction are represented in Model 2?

a. 0.01 and $\frac{1}{10}$	b. 0.1 and $\frac{1}{100}$
c. 0.1 and $\frac{1}{10}$	d. 0.01 and $\frac{1}{100}$

10. Model 1 is shaded to represent one whole.

Model 1

Look at the shaded parts of Model 2.

Model 2

Which decimal and fraction are represented in Model 2?

a. 1.4 and $\frac{1}{4}$	b. 4.5 and $\frac{4}{5}$
c. 0.25 and $\frac{1}{4}$	d. 0.8 and $\frac{4}{5}$
