Are you a GENIUS?

What the nation needs is more geniuses. So said Robert Streeter and Robert Hoehn, two self-styled intelligence experts in the Thirties, who set out to discover clever people by publishing a book posing devilishly difficult brain teasers for members of the general public.

Now their book has been republished and here we offer you a selection of its tortuous tests – so you can discover if YOU are a genius...

1 Four men can build four boats in four days. How long will it take one man to build one boat?

2 Which is heavier, milk or cream?

3 What one word means both 'dodge' and 'immerse' and is a bird?

4 If a clock is stopped for a minute every ten minutes, how long will it take the minute hand to complete a revolution?

5 What adjective which means 'of or relating to a city, citizens, or citizenship' spells the same from right to left as it does from left to right?

6 When seen in a mirror, which of the following words printed in capital letters will look the same as when viewed directly? **MAN TOOT DEED**

7 A man lived in a house that could be entered by only one door and five windows. Making certain that there was no one in the house one day, he went out for the afternoon. Upon his return, although the windows were still locked and unbroken and the door had not been

forced, he discovered a thief in his house robbing it. If the thief did not use a skeleton key, or pick any of the locks, how did he get into the house?

8 If a hen and a half lays an egg and a half in a day and a half, how many eggs will seven hens lay in six days?

9 The first two syllables of the name of one of the States of the United States is suggested by a girl's name. The third syllable is suggested by a word meaning 'come down to earth'. What is the name of the State?
