The Weather in Russia

In winter, the days are very short and the nights are very long. The sun rises at eight o'clock in the morning and goes down at four in the afternoon. It is very cold and snowy. We like to play in the snow.

In spring the days become longer. It is warm outside. The sun shines and the birds sing. There are beautiful flowers everywhere. We go on school trips and have fun.

In summer, the days are very long and the nights are very short. The sun rises (זורחת) at four o'clock in the morning and goes down at ten at night. The nights are not dark (חשוכים). It is warm and sometimes it rains, so we need umbrellas. We like to swim in summer because the water is warm.

In fall the days become shorter. It is cool and windy outside. Sometimes it rains. We go to school in the morning and in the afternoon we play basketball in the park.
