DISCOVER

Lions and elephants are mammals. Mammals give birth to live young. They are often covered in fur. Some mammals don't live on land.

2 Look at the list of animals in activity 1. Which mammal is the odd one out? Why?

EXPLORE

3 Different mammals live in different habitats. Match.

- | | |
|------------|------------|
| 1 lion | Antarctica |
| 2 panda | Australia |
| 3 penguin | Africa |
| 4 kangaroo | Asia |

APPLY

4 Choose an animal from activity 3. Draw the animal in its habitat using wax crayons.

Task complete!
