### The Big Elephant in the Forest

One day an elephant was walking across a forest looking for friends. He saw a monkey on a tree. "Do you want to be my friend?" asked the elephant; and the monkey answered, "You are too big. You can't swing from trees like me."

The elephant continued walking and he met a rabbit. He asked the little rabbit to be his friend. But the rabbit answered, "You are too big to play in my burrow!"

So the elephant continued walking when he saw a green frog.

He asked the frog, "Do you want to be my friend?" But the frog answered, "How can I? You are too big to jump like me." The elephant was very sad.

The next day, the elephant saw all the animals in the forest running very fast.

"There is a bad tiger in the forest. He wants to eat us!" a bear shouted.

Meanwhile, the tiger was eating every animal he found. The elephant walked up to the tiger and said, "Please, Mr. Tiger do not eat these poor animals."

"Shut up, elephant!" shouted the tiger. Angry, the elephant gave the tiger a hard kick.

The tiger was scared now, he ran very fast and disappeared.

The elephant went back to the forest and said, "The bad tiger is not in the forest anymore. You are all safe now"

Now, the animals are very happy and they sing and dance with the elephant.
