

## B Materials

- Put the words in the box in the correct category.

aluminum cardboard cotton leather  
nylon pine plastic silk wax

|                        |           |
|------------------------|-----------|
| Natural fibers         | wool      |
| Synthetic materials    | polyester |
| Wood                   | mahogany, |
| Metal                  | , steel   |
| Paper products         |           |
| Other natural products | , rubber, |

- What belongings do you have that are made from the materials in the chart?

*a leather jacket, a mahogany table...*

 Work in groups. Think about your favorite store. Discuss the questions.

- Where is it? Is it easy to get to?
- What kinds of things do you buy there?
- What does it look and smell like?
- Do they play music? What kind?
- How do you feel when you're in the store?
- Do you often buy things there that you don't really need?

*My favorite store is a game store. They have lots of secondhand games and you can pick up some great bargains.*
