Save our beach!

Lots of people in our town used to go swimming and scuba-diving in the sea but they can't now. The beach is dirty and the water is not safe because it's full of rubbish. Many people leave their rubbish behind, or they don't put it in the bin because there aren't enough bins.

Our school is going to clean up the beach. We are going to pick up the rubbish and we are also going to bring more bins.

Why don't you come and help us? Meet us outside Greenhill School on Sunday 11th May at 9 am. Let's clean up our beach and make it a beautiful place for everyone to enjoy!

❖ *You are a student who is worried about the environment. Your school is going to do something!*
• *Make a leaflet to tell the people in your town what you are going to do.*
• *Invite them to join you! Tell them where and when!*

The people in our town used to...
