- A.** New Zealand is a country of islands located in the Pacific Ocean. The North Island and the South Island are the main ones, and there are numbers of small ones, some of which are hundreds of kilometers from the main islands. The country's nearest neighbour is Australia, which lies more than 1,600 km northwest of New Zealand. It's never very hot or very cold in New Zealand because it is surrounded by water. Summer and winter temperatures in most places differ by less than 10°.
- B.** New Zealand has another name, Aotearoa, which means 'the land of the long white cloud' in Maori language. The first Maori settled in New Zealand about a thousand years ago. They came from Polynesia and were excellent sailors and warriors. When the Dutch explorer Abel Tasman came to New Zealand in 1642, Maori warriors fought off his sailors and he was unable to land! It was Abel Tasman who gave the country its present name. Zeeland means 'Sea Land' in Dutch.
- C.** New Zealand has got it all — snowcapped mountains, sleeping and active volcanoes, fast-flowing rivers, green forests and peaceful lakes with crystal clear water. You can spend a whole day by some lake or river and be the only person there. There are places in this beautiful land that have never felt a human footstep.
- D.** The isolation of New Zealand from other lands allowed the survival of animals and plants from the time of the dinosaurs. Ancient tree ferns, plants that produce spores rather than seeds, and primitive relatives of pine trees still grow in the forests. The ancient silver fern can be found only in New Zealand. It can be 10 metres high or more! Many sports teams in New Zealand use this plant as an emblem.
- E.** With its mild climate and a lot of rivers, lakes and mountains, New Zealand is a great place for sports. Thrill-seekers can go surfing, diving, rafting, mountain biking and so on. Zorbing and bungee jumping, two of the most exciting sports in the world, were invented in New Zealand. New Zealand is also one of the leading nations in world yachting, especially open-water long distance or round-the-world races.
- F.** New Zealand is a land of volcanoes. Most of them are sleeping, but some are active and you can see steam and smoke coming from them! The largest and most active volcano is the White Island volcano. The whole place smells of rotten eggs, and you can hear a roaring sound — like the growl of a living creature — coming from beneath the ground. The White Island volcano last erupted — without warning — in 2000. In spite of the terrible smell it is a popular tourist attraction. Walking through the crater is like being on another planet!

LIVERPOOL AND THE BEATLES

On Wednesday 24th October 1962, Love Me Do, entered the British Top Thirty. It was the first single by an unknown group from Liverpool called the Beatles. It was the first of a number of big hits that would make John Lennon, Paul McCartney, George Harrison and Ringo Starr the most successful pop group the world has ever known.

However, the road to success was not always easy. John and Paul had spent many afternoons listening to American stars like Chuck Berry and Elvis Presley before they were able to write the famous Lennon and McCartney songs.

Although the long evenings spent playing in hot nightclubs in Liverpool and Hamburg in Germany had not earned them much money, they found the experience very useful when playing to huge audiences later on.

Not only was their style of singing new and exciting but their unusual haircuts and crazy sense of humour immediately became the latest fashion.

One of the most important people at the start of their careers was Brian Epstein, a Liverpoolian record-dealer. He managed to change four ordinary working-class lads into international superstars. George Martin, their record producer, encouraged them to introduce all kinds of unusual instruments on their records and combine popular and classical styles in a new and original way.

During the 1960s, the Beatles were always in the news headlines; films, world tours and sometimes scandal. John once suggested that the Beatles were better known than Jesus Christ. This caused hundreds of young Americans to burn their Beatle records. In addition some people thought there were hidden messages about drugs in some of the songs.

After a decade of successful music and films, the Beatles finally decided to break up in the early seventies, after public disagreements about money and personalities.

Although many fans hoped there would be a reunion throughout the 1970s, this became impossible with the tragic murder of John Lennon in New York in 1980.

The surviving Beatles are still deeply involved in musical and film projects, but many fans still long for the music of the 60s.
