

I. **Identify.** Please identify if the description belongs to an OUTER PLANET or INNER PLANET. Write OP or IP next to each description.

1.	Colder
2.	Smaller
3.	Few moons
4.	Hard rocky surface
5.	No rings
6.	Warmer
7.	Many moons
8.	Gas Giants
9.	No hard surface just ice and gas
10.	Rings

II. **Match.** Please match the planet with its characteristic. Write the **letter** on the line provided.

- | | |
|---|------------------|
| 1. _____ Largest planet. | |
| 2. _____ Dwarf planet. | A. Asteroid Belt |
| 3. _____ Has life. | B. Pluto |
| 4. _____ Most rings. | C. Mars |
| 5. _____ Separates outer and inner planets. | D. Jupiter |
| 6. _____ Red planet. | E. Earth |
| 7. _____ Hottest planet. | F. Venus |
| 8. _____ Smallest planet and closest to the sun | G. Uranus |
| 9. _____ Coldest and blue and last planet | H. Saturn |
| 10. _____ Tilted on its side. | I. Mercury |
| | J. Neptune |

III. Compare and Contrast Jupiter and Earth. Just write the number in the correct box.

1. ONE MOON	2. OUTER PLANET	3. MADE OF ROCK	4. DOES NOT HAVE RINGS
5. MANY MOONS	6. MADE OF GAS	7. INNER PLANET	8. PART OF OUR SOLAR SYSTEM

EARTH

BOTH

JUPITER
