Proud of my Sister

Kelly is my sister; she is a nurse. She works at the San Miguel Archangel Hospital. Now with the pandemic, she is working 18 hours a day. Most of the time, she stays in the hospital for days because there are a lot of people with COVID-19.

She always wakes up at 4:00 a.m. and starts working at 5:00. Sometimes, she doesn't have time to take breakfast. At 12:00, she takes lunch at the hospital cafeteria; and then continue working until 6:00 when she takes dinner.

She says it's very difficult to work at a hospital during a pandemic, but she tries to do her best to help people improve their health. She goes to bed at 10:30 p.m. after working the whole day. I am very proud of my sister; she is my superhero.

After reading several times, answer the following questions.

1. What is the title of the reading?

2. What is Kelly's occupation?

3. How long does she work every day?

4. What time does Kelly wake up?

5. What time does Kelly go to bed?
