Subject: House in the Clouds

Hello from Thorpeness! It's a small village in the east of England and we're staying here right now. We usually stay in a hotel when we go on holiday but this time we've got a house for two weeks. It's called the 'House in the Clouds' because it's about 21 metres high!

This is a really interesting house. It's special. It's different. About 90 years ago, it was a water tower. You don't see many water towers nowadays. They're tall buildings and they contain water for all the houses around them. Water towers are usually ugly but a very intelligent architect designed a fantastic house from the old water tower. About 25 men worked there. They painted the place, decorated the rooms and, in 1977, they converted the building into a house, a house in the clouds.

I am in this house now. My bedroom is on the fourth floor so I can see Thorpeness beach and the sea. I love this place and my parents are very happy too.

See you all!
Lily
