

## La suma llevando

Para sumar: Se colocan las Unidades debajo de las Unidades y las Decenas debajo de las Decenas y se suma.

	D	U
	4	8
+	2	3
	7	1

Detailed description: A vertical addition problem using a place value chart. The chart has two columns: 'D' (Decenas) and 'U' (Unidades). The first number is 48, with 4 in the D column and 8 in the U column. The second number is 23, with 2 in the D column and 3 in the U column. The sum is 71, with 7 in the D column and 1 in the U column. A red arrow starts from the 8 in the U column, goes up to a small circle containing the number 1, and then curves down to the 1 in the U column of the sum. Another red arrow starts from the 3 in the U column, goes up to a small circle containing the number 1, and then curves down to the 1 in the U column of the sum. The plus sign is to the left of the chart.

Pon el signo de sumar en cada operación y realiza la suma
