▶ There are several advantages of exercising in a group. To begin with, it's a great way to meet new people. This is because it gives you the opportunity to take part in shared activities like Zumba. Also, it can motivate you to go and exercise. For example, your new friends will encourage you to attend classes.

▶ On the other hand, there are certain disadvantages. Firstly, you get less individual attention from the instructor. As a result, there is a higher chance of injury. Secondly, there are people at different fitness levels. Consequently, not everyone may be able to follow the class pace.

▶ On the whole, there are both pros and cons to exercising in groups. Although you may get less individual attention and people may be at different levels, I believe that exercise classes are a fun way to get fit and a great way to meet new people.
