

Labeling the 5 Oceans

Directions – Listen to the video and read the lyrics, then drag and drop the name of each ocean on the correct location on the map.

About 70% of the surface of the Earth is ocean water.

And it's divided up in five parts,

From biggest to smallest:

Pacific, Atlantic, Indian, Southern, Arctic.

Pacific, Atlantic, Indian, Southern, Arctic.

I'm the Pacific, to be specific.

I'm a third of the Earth's surface, where my turf is.

And my Mariana Trench is the very, very deepest in the sea.

And I'm the Atlantic, named after the Greek god, Atlas.

With the Bermuda Triangle and Gulf Stream in me.

I'm the Indian Ocean, the warmest around.

And I'm the Southern Ocean, where Antarctica is found.

And I'm the Arctic, the smallest and the shallowest.

But that's fine, you see; I've got more ice than you've ever seen.

Even polar bears walk on me.

We're the Pacific, Atlantic, Indian, Southern, Arctic.
