

THE PLAN KINGDOM

1. Place each characteristic into the right place.

Most are evergreen trees and bushes. They produce flowers and fruits which contain seeds. Apple trees, lavender, grasses and shrubs. They do not produce flowers or fruits.	Can be deciduous or evergreen trees. Pine trees and firs. They produce seeds which are grouped together in cones. They are flowering plants.
--	---

GYMNOSPERMS		ANGIOSPERMS	

2. Write M or F

 MOSSES		Tiny stems and leaves
		Large leaves called fronds
 FERNS		Live in humid and shady places
		Vascular plants

3. Classify these plants

SEED-PRODUCING		SPORE-PRODUCING
GYMNOSPERM	ANGIOSPERM
