Worksheet – Recycled Material

Join the sequence words with the steps to make a piggy bank. There is an example .

FIRST	Cut out shapes for the ears. Glue them to your bottle.
SECOND	Cut a strip of paper long enough to wrap around the bottle.
THEN	Draw the eyes with a permanent marker. Now you have a piggy bank.
AFTER	Cut a slot in your bottle approximately 2cm wide.
AFTER THAT	Make two circles in a different coloured paper. Glue these to the bottle cap to make the pig's snout.
NEXT	Wrap the paper around the bottle and use a pencil to trace over the coin slot.
FINALLY	Glue the paper in place and then use your knife to cut out the slot.
