

Hi Mary,

Guess what! We moved to a new house [redacted] month. It's great! It has [redacted] floors. On the ground floor there's a large living room with a [redacted]. Next to the living room we have a big kitchen. My dad likes spending his time there, because he loves [redacted]. We have a bathroom on each floor. I'm very happy because I have my own room. It's on the first floor, next to my sister's [redacted]. And my parents' bedroom is on the second floor.

We have two gardens. My mum's garden is in front of the house. There aren't any trees or [redacted] in it because my mum loves roses. That's why this garden is full of [redacted]! We also have a small garden behind the house. It's a place where I spend my free time and play with my [redacted]. But I can't play with my dog or ride a bike there.

Bye,  
Eve
