

# Compongo y descompongo

## 1 ¿Qué número se forma?

$400 + 300 + 100 = \boxed{\phantom{000}}$

$300 + 300 + 200 = \boxed{\phantom{000}}$

$200 + 400 + 100 = \boxed{\phantom{000}}$

$200 + 100 + 200 = \boxed{\phantom{000}}$

$400 + 100 + 400 = \boxed{\phantom{000}}$

$200 + 500 + 100 = \boxed{\phantom{000}}$

$500 + 300 + 100 = \boxed{\phantom{000}}$

$100 + 100 + 100 = \boxed{\phantom{000}}$

$200 + 200 + 200 = \boxed{\phantom{000}}$

$300 + 300 + 300 = \boxed{\phantom{000}}$

## 2 Un poco más difícil. Escribe el número que se obtiene.

$100 + 300 + 200 + 200 = \boxed{\phantom{000}}$

$300 + 400 + 100 + 100 = \boxed{\phantom{000}}$

$200 + 200 + 200 + 200 = \boxed{\phantom{000}}$

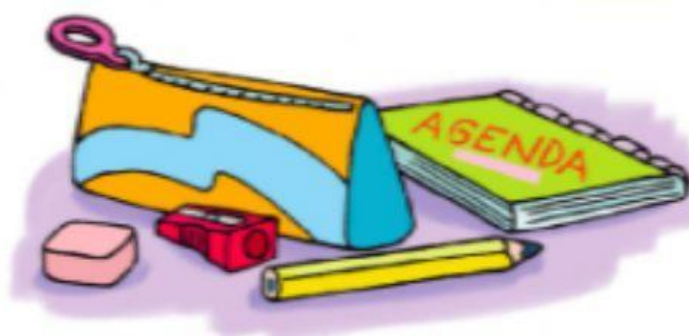

$400 + 300 + 100 + 100 = \boxed{\phantom{000}}$

$300 + 300 + 100 + 100 = \boxed{\phantom{000}}$

$100 + 100 + 200 + 200 = \boxed{\phantom{000}}$

$100 + 100 + 100 + 200 + 300 = \boxed{\phantom{000}}$

$100 + 100 + 300 + 100 + 200 = \boxed{\phantom{000}}$

## 3 Y ahora al revés. Fíjate en el ejemplo y descompón, en centenas completas, estos números:

$400 \rightarrow \boxed{100 + 200 + 100}$

$700 \rightarrow \boxed{\phantom{000}}$

$500 \rightarrow \boxed{\phantom{000}}$

$900 \rightarrow \boxed{\phantom{000}}$

$300 \rightarrow \boxed{\phantom{000}}$

$600 \rightarrow \boxed{\phantom{000}}$

$200 \rightarrow \boxed{\phantom{000}}$

$800 \rightarrow \boxed{\phantom{000}}$
