

# ¡Piensa cabecita, piensa!

Halla el valor numérico de los siguientes adornos navideños:

$$\begin{array}{c} \text{bell} \\ + \\ \text{bell} \end{array} = 10$$

$$\begin{array}{c} \text{bell} \\ + \\ \text{bell} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{bell} \\ + \\ \text{reindeer} \end{array} = 8$$

$$\begin{array}{c} \text{reindeer} \\ + \\ \text{reindeer} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{reindeer} \\ + \\ \text{ornament} \end{array} = 9$$

$$\begin{array}{c} \text{candy cane} \\ + \\ \text{candy cane} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{wreath} \\ + \\ \text{wreath} \end{array} = 14$$

$$\begin{array}{c} \text{wreath} \\ + \\ \text{wreath} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{candy cane} \\ + \\ \text{wreath} \end{array} = 15$$

$$\begin{array}{c} \text{ornament} \\ + \\ \text{ornament} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{bell} \\ + \\ \text{candy cane} \end{array} = 13$$

Ahora resuelve las operaciones empleando los valores numéricos:

$$\begin{array}{c} \text{bell} \\ + \\ 40 \end{array} = \boxed{\phantom{00}}$$

$$8 - \begin{array}{c} \text{ornament} \\ + \\ \text{ornament} \end{array} = \boxed{\phantom{00}}$$

$$23 - \begin{array}{c} \text{reindeer} \\ + \\ \text{reindeer} \end{array} = \boxed{\phantom{00}}$$

$$\begin{array}{c} \text{candy cane} \\ + \\ 30 \end{array} = \boxed{\phantom{00}}$$

$$11 + \begin{array}{c} \text{wreath} \\ + \\ \text{wreath} \end{array} = \boxed{\phantom{00}}$$

$$17 - \begin{array}{c} \text{bell} \\ + \\ \text{bell} \end{array} = \boxed{\phantom{00}}$$
