

a) Read the riddles and write the correct word.

I am a path that a planet or object takes, moving around another planet, star, etc.	I am a large group of stars. You live in one: the Milky Way.	I am under the surface of the ground. Rabbits and moles live here.
The Sun and the planets move around this.	I am a person who works and travels in space.	I make something seem very small in comparison like Pluto.

b) Look at the map and write.

c) Look at the image and write.
