 - a. 4
 - b. 8
 - c. 6
 - d. 12
5. The figure which has six equal sides and six angles is called :
 - a. Pyramid
 - b. Cube
 - c. Cuboid
 - d. None

II.

Practice time — Match these

Match each yellow box with one green and one pink box.

Rupee $\frac{1}{2}$	5 paise	Rupee 0.75
Rupee $\frac{1}{10}$	25 paise	Rupee 0.50
Rupee $\frac{5}{100}$	99 paise	Rupee 0.05
Rupee $\frac{3}{4}$	50 paise	Rupee 0.10
Rupee $\frac{99}{100}$	75 paise	Rupee 0.25
Rupee $\frac{1}{4}$	10 paise	Rupee 0.99

The diagram shows three columns of boxes. The first column (yellow) contains fractions of a rupee. The second column (green) contains values in paise. The third column (pink) contains decimal values of a rupee. Two blue arrows indicate matches: one from 'Rupee 1/2' to '50 paise', and another from '50 paise' to 'Rupee 0.50'.
