

Name :-

Do not divide. Just estimate!**Example:-**

If ₹ 97 are to be divided equally among 5 people, about how much will each one get?

97 is close to 100 and 100 can be easily divided by 5. So each person will get about $100 \div 5 = ₹ 20$.

Now, estimate and **click** the closest answer in each of the following cases.

- (a) If 73 marbles have to be divided equally among 4 children, then how many marbles will each child get?

50

20

70

- (b) If 92 pencils have to be divided equally among 9 children, then how many pencils will each child get?

8

10

12

- (c) If 187 laddoos have to be divided in such a way that each box contains 6 laddoos, then how many such boxes will be required?

20

30

40

- (d) If ₹ 131 have to be divided among 7 people, then how much money will each one get?

20

15

10

- (e) If ₹ 461 have to be divided among 8 people, then how much money will each one get?

50
