7) READ AND PUT THE SENTENCES IN THE CORRECT PLACE ( LEER Y UBICAR LAS ORACIONES EN EL LUGAR CORRECTO)

**Wild hippopotamuses live in central Africa. They're big and fat. They have small eyes, small ears and short legs. They also have very big teeth! Adult hippos are usually three to four metres long, and they can run very fast!**

**Hippos often sleep in water during the day because the water is cool. Hippos usually come out of the water at night and eat. They only eat plants. They can eat up to 40 kg of grass in one night, and they can travel up to 10 km to find food. Hippos can be very dangerous. Every year they kill hundreds of people!**
