

Nombre y apellidos:.....Fecha:.....

Realiza estas divisiones y comprueba que están bien.

a.

$$\begin{array}{r} 10 \overline{) 3} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 10

b.

$$\begin{array}{r} 21 \overline{) 6} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 21

c.

$$\begin{array}{r} 13 \overline{) 3} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 13

d.

$$\begin{array}{r} 34 \overline{) 8} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 34

e.

$$\begin{array}{r} 37 \overline{) 5} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 37

f.

$$\begin{array}{r} 17 \overline{) 3} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 17

g.

$$\begin{array}{r} 35 \overline{) 4} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 35

h.

$$\begin{array}{r} 61 \overline{) 7} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 61

i.

$$\begin{array}{r} 58 \overline{) 8} \\ - \square \square \\ \hline \square \end{array}$$

..... x = + = 58

a.

$$\begin{array}{r} 66 \quad | \quad 9 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 66$$

b.

$$\begin{array}{r} 70 \quad | \quad 8 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 70$$

c.

$$\begin{array}{r} 49 \quad | \quad 5 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 49$$

d.

$$\begin{array}{r} 43 \quad | \quad 8 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 43$$

e.

$$\begin{array}{r} 34 \quad | \quad 6 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 34$$

f.

$$\begin{array}{r} 38 \quad | \quad 4 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 38$$

g.

$$\begin{array}{r} 28 \quad | \quad 3 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 28$$

h.

$$\begin{array}{r} 15 \quad | \quad 2 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 15$$

i.

$$\begin{array}{r} 61 \quad | \quad 9 \\ - \quad \square \quad \square \\ \hline \square \end{array}$$

$$\dots \times \dots = \dots + \dots = 61$$
