

Globe

The globe is a map of the entire world that is shaped like a ball just like earth. This helps us see the shape, size and position of countries and oceans better than on a flat map. Globes are usually on a stand that lets you spin it around to get a better look at certain places .Also, A globe shows Earth as it looks when seen from outer space.

Choose :

- 1- You can see the shape, size and position of countries and (stars \ oceans \ sun).
- 2- Globe is a map shaped like a tree (True \ False).
- 3- A globe can show the Earth as it looks when seen from outer space (True \ False).
