**TASK : LISTEN to the FOLLOWING AUDIO and FILL IN the GAPS:**

“Scientists and doctors can’t make their \_\_\_\_\_ up about coffee. One \_\_\_\_\_ says it’s really bad for us and the next \_\_\_\_\_ says it’s good for us. I’ve even read that 10 \_\_\_\_\_ a day is good for our brain. I like a cup of coffee at \_\_\_\_\_ times of the day. I must have a coffee first thing in the \_\_\_\_\_. I can’t \_\_\_\_\_ without my morning coffee. I have another cup or two when I get to work. And that’s it. I never drink coffee \_\_\_\_\_ lunchtime. If I do, I can’t \_\_\_\_\_ at night. The only time I drink coffee in the evening is if I go to a nice restaurant. Coffee seems a lot more \_\_\_\_\_ these days. When I was younger it was just coffee. Now it’s \_\_\_\_\_, frappucino and all kinds of other strange words.”
