

Name _____

Solve each word problem.

The pizza had 4 slices.

Michael ate $\frac{1}{4}$ of the pizza. Ethan ate $\frac{1}{4}$ of the pizza

How much pizza did they eat altogether?

$$\begin{array}{r} \boxed{} \\ \hline \boxed{\text{four}} \\ \boxed{4} \end{array} + \begin{array}{r} \boxed{} \\ \hline \boxed{} \\ \boxed{} \\ \hline \boxed{} \end{array} = \begin{array}{r} \boxed{} \\ \hline \boxed{} \\ \boxed{} \\ \hline \boxed{} \end{array}$$

The pizza had 6 slices.

Michael ate $\frac{2}{6}$ of the pizza. Ethan ate $\frac{3}{6}$ of the pizza

$$\begin{array}{r} \boxed{} \\ \hline \boxed{\text{six}} \\ \boxed{6} \end{array} + \begin{array}{r} \boxed{} \\ \hline \boxed{} \\ \boxed{} \\ \hline \boxed{} \end{array} = \begin{array}{r} \boxed{} \\ \hline \boxed{} \\ \boxed{} \\ \hline \boxed{} \end{array}$$
