

Exit Ticket - The Internet

1. Read the text and write what is the main point in one complete sentence (2 pts):

The Internet has many advantages and disadvantages. Firstly, it's good for kids to know how to use a computer and the internet. They may use internet tools and resources to communicate, entertain themselves and make purchases. In addition, they can find information, search good articles and do research for their schools. Furthermore, they can learn new things from the internet. They can also do their homework on the computer instead of wasting time writing down. However, there are also negative effects. They can open some bad sites or even worse. They might be addicted to games on the computer or even online-games which are most of the time violent. This could have a negative impact on kids because they learn what they see and do.

The main point of the text is:

2. Put the following expressions in the right column: (4 pts)

Search for information - do not do physical activity – connect with friends and family –
download music and videos – don't make contact with others - bad school results –
damage eyes – addiction

Advantages	Disadvantages
