Newspapers and television news programs always seem to report about the bad things happening in society. However, there is a place where readers can find some good news. That place is the website

---

called *HappyNews*. The man behind *HappyNews* is Byron Reese. Reese set up *HappyNews* because he thought other news sources were giving people an unbalanced view of the world. Reese said about *HappyNews*, “The news media gives you a distorted view of the world by **exaggerating** bad news, misery, and despair. We’re trying to balance out the scale.”

Not everyone agrees with Reese’s view, though. Many people think that news sources have a responsibility to provide news that is helpful to people. People need to know about issues or problems in today’s society. Then **they** are better able to make informed decisions about things that affect their daily lives. Reese said that *HappyNews* is not trying to stop people from learning about issues or problems. *HappyNews* is just trying to provide a balanced picture of today’s world.

By the end of its first month online, *HappyNews* had more than 70,000 unique readers. About 60 percent of those readers were women. Something else unique makes *HappyNews* different from any of the other news or information websites that are on the Internet. Unlike many other websites, *HappyNews* gets fan mail from its readers on a daily basis.

*Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.*

No sooner had the first intrepid male aviators safely returned to Earth than it seemed that women, too, had been smitten by an urge to fly. From mere spectators, they became willing passengers and finally

---

pilots in their own right, plotting their skills and daring line against the hazards of the air and the **skepticism** of their male **counterparts**. In doing so they enlarged the traditional bounds of a women's world, won for their sex a new sense of competence and achievement, and contributed handsomely to the progress of aviation.

But recognition of their abilities did not come easily. "Men do not believe us capable." The famed aviator Amelia Earhart once remarked to a friend. "Because we are women, seldom are we trusted to do an efficient job." Indeed old attitudes died hard: when Charles Lindbergh visited the Soviet Union in 1938 with his wife, Anne—herself a pilot and gifted proponent of aviation – he was astonished to discover both men and women flying in the Soviet Air Force.

Such conventional wisdom made it difficult for women to raise money for the up – to – date equipment they needed to compete on an equal basis with men. Yet they did compete, and often they triumphed finally despite the odds.

Ruth Law, whose 590 – mile flight from Chicago to Hornell, New York, set a new nonstop distance record in 1916, exemplified the resourcefulness and grit demanded of any woman who wanted to fly. And when she **addressed** the Aero Club of America after completing her historic journey, her plainspoken wordstestified to a universal human motivation that was unaffected by gender: "My flight was done with no expectation of reward," she declared, "just purely for the love of accomplishment."
