Task 5 Read the text and decide if the sentences below are **true** or **false**:

1. The two boys grew up in the same area.
2. The Springer family and the Lewis family didn't know each other.
3. Both boys were good at spelling.
4. The men married more than once.
5. Both men gave their sons the same name as their own.
6. The men looked for each other all their lives.

There are many stories of identical twins who have nearly identical lives. The most amazing story of all is the story of Jim Lewis and Jim Springer, two twin brothers who were born in Ohio, USA.

The twin boys were separated at birth. Each boy went to live with different parents, about sixty kilometres from each other – the Lewis family and the Springer family. The two families didn't know each other, but they both named their new baby sons James and called them Jim for short! And this is just the beginning of the amazing story of the two Jims. Even at school they had lots of similar habits and talents. They were both very good at maths, drawing and woodwork, and bad at spelling. Both of them married twice. Both had a first wife called Linda, and both had a second wife called Betty! They both had sons themselves, and they both called them James! And they both had pet dogs called Toy!

Jim Lewis was thirty-seven when he found out that he had a twin brother. He searched for a long time before he found Jim Springer's phone number. They finally met two years later, when they were thirty-nine.
