

1. Arrastra cada unidad del relieve de España a su lugar correspondiente.

2. Identifica el río que corresponde a cada número.

A topographic map of the Iberian Peninsula showing the main river networks of Spain. The map is color-coded by elevation, with yellow and orange representing higher altitudes and blue representing lower altitudes and water bodies. Fifteen specific locations are marked with numbers 1 through 15, distributed across the country to represent various major river basins. The Balearic Islands are shown in the northeast, and the Canary Islands are shown in the southwest.
