My working day starts very early. From Monday to Friday I get up at half past 3 and I have a shower and a cup of coffee. I usually leave the house at ten past 4 because the car always arrives a few minutes early. I get to the studio at about five o'clock and start work. My program *Good Morning Britain* starts at seven o'clock and finishes at nine o'clock. Then I leave the studio.

After work, I go shopping and visit some friends. I get home at 3 o'clock. A woman helps me with the housework. I read a newspaper and do some work.

Then my husband gets home at 6 o'clock in the evening and I cook dinner. We stay at home in the evening. We don't go out because I go to bed very early. I think my job is very interesting but I don't like getting up very early.
