

Name:

Section: 9.....

## Week 1 Session 3

### Computer programming skills

- (a). Research and list the names of two people who have been successful in the computing industry. At least one person should be a woman and one should be an Emirati. With the abilities and skills you develop while studying computing, your name could be next on that list.

Table 1

| Name | What they have achieved in computing |
|------|--------------------------------------|
|      |                                      |
|      |                                      |
|      | MOE 2020-21                          |

### Requirements for future jobs

Try to find more information about the terms in the table below and describe them. How do they relate to computing?

Table 5

| Term                    | Description |
|-------------------------|-------------|
| Artificial intelligence |             |
| Cloud computing         |             |
| VR                      | MOE 2020-21 |
