

Badger

Sett

Worm

My name is Bob. I am a badger. A badger is a mammal. I haven't got wings or scales. I've got small ears and four, short legs. I've got twenty toes and long, sharp claws. My fur is silver/grey and I have black and white stripes on my head. My tail is short.

I use my claws for digging. I dig out worms from the soil. Worms are my favourite food. I can eat 200 worms a day! I can swim, but I don't like it. I like walking at night and sleeping in the day.

I live in a burrow underground. It's called a sett. It is in a beautiful forest under a big tree.

1. How many toes has badger got?
2. Where does badger live?
3. Has badger got wings?
4. Does badger eat worms?
5. What colour is badger?
6. Has badger got a short tail?
7. Can badger swim?
8. Does badger like swimming?
9. Does badger sleep at night?
10. Has badger got scales?
