

# Note Values

These are the various different note lengths which you need to understand.

NOTE NAME	NOTE SYMBOL	NOTE LENGTH
Semibreve		4 beats
Minim		2 beats
Crotchet		1 beat
Quaver		½ beat

If we have two quavers next to one another - 

We take the tail of each one and tie it together 

We call this a beamed quaver which altogether adds up to 1 beat.

(Even though they are tied together, each note is still  $\frac{1}{2}$  a beat).
