

## Lesson 6.4 Skills Practice

page 4

Calculate each percent by writing an equivalent fraction with a denominator of 100.

11. 13 out of 20

$$\frac{13}{20} = \frac{?}{100}$$

$$\begin{array}{r} 13 \xrightarrow{\times 5} 65 \\ 20 \xrightarrow{\times 5} 100 \\ \hline \end{array}$$

$$13 \text{ out of } 20 = 65\%$$

12. 4 out of 10

13. 37 out of 50

14. 7 out of 25

15. 3 out of 5

16. 6 out of 20

6

Answer each question by writing an equivalent fraction with a denominator of 100.

17. In Mr. Romero's class of 25 students, 13 of the students participate in school sports.

What percent of the class participates in school sports?

$$\frac{13}{25} = \frac{?}{100}$$

$$\begin{array}{r} 13 \xrightarrow{\times 4} 52 \\ 25 \xrightarrow{\times 4} 100 \\ \hline \end{array}$$

So, 52% of Mr. Romero's class participates in school sports.
