

# Ice Cream Truck

Read the text and then fill in the correct word below.

Do you hear that bell? Do you know what that means? The ice cream truck has arrived!

An ice cream truck is a summer tradition that brings some cool relief to people around the world. It is a small truck with a refrigeration unit. They sell all kinds of different ice cream products: snow cones, popsicles, ice cream sandwiches, soft ice cream and so on. They are not big trucks. They usually just have four wheels and enough space for the vendor to work in.

One famous brand of ice cream trucking is the Good Humor company started in the 1920s. They developed mobile freezers and began to sell those delicious ice creams on a stick. Dressed in their white uniforms, the Good Humor Man is a welcome sight every summer.
