|               |            |

1. cement

2. mortar

3. sand

4. cow dung

5. clay

6. mirrors

7. lime

8. raw clay bricks

9. dried clay bricks

On Republic Day in 2001, a major earthquake devastated Gujarat, killing 30,000 people and leaving half a million homeless. There was considerable damage across the state, but the city of Bhuj bore the brunt of this devastating earthquake. To rebuild it, a group of local architects, engineers and non-profits came together, emphasising community participation, traditional home designs and local knowledge, to rebuild the city.
