## THE GIRAFFE

The giraffes are the tallest (0) land animals. They live in Africa, but we never find them in the desert or virgin forests\*. They live close to acacia (1) \_\_\_\_\_ because acacia leaves are their favourite food.

Male giraffes can be 4.8 to 5.5 m (2) \_\_\_\_\_ and weigh up to 1360 kg. Female giraffes are (3) \_\_\_\_\_ than male giraffes and weigh less than the males do.

A giraffe can reach speeds of up to 50 km/h. It lives 25 years in the (4) \_\_\_\_\_ and 30 years in captivity.

Giraffes have got hairy horns and brown (5) \_\_\_\_\_, which are protected by thick eyelashes. They have got big brown (6) \_\_\_\_\_ covering their entire bodies.

Their necks are long and strong with a mane. The neck can be up to 2 m long. It's a real pain in the neck for the giraffe to get a (7) \_\_\_\_\_! Because of its height it has to spread its (8) \_\_\_\_\_ wide or sometimes even kneel.

"Necking" is a fight between two male giraffes that looks like sword fighting with (9) \_\_\_\_\_. They fight for the position of the herd leader. Usually the male with the longer neck wins.
