Space, Stars, and Life on Mars

A. Watch The Planet Song For Kids and complete with the correct planet name.

- 1. Which is the brightest planet in our solar system?
- 2. Which is the biggest planet in our solar system? ______
- 3. Which is the coldest planet in our solar system? ______
- 4. Which is the smallest planet in our solar system? ______
- 5. Which is the only planet with organic life? _____
- 6. Which planet has the highest mountain in our solar system?
- 7. Which planet has outer rings made of dust and icy chunks?

8. Which planet is the furthest from the sun?

B. Complete the table using the verbs in the sentences and match them to their definition.

Bobby likes to watch the stars using his telescope.

The planets in our solar system orbit the sun.

会会会会会会会会会会会会会会

The astronauts travel to the International Space Station.

The scientists want to discover if there is life on other planets.

We like to watch the rockets launch into space.

Many children want to become astronauts and explore space.

Discover	to find something for the first time
	to send something into space
	to go on a journey somewhere far away
	to go around a planet or sun
	to look at something for a long time
	to search something to learn about it

★C. Match the vocab to the definition

Galaxy	Spacewalk	Astronomer	Astronaut	Planet
	A pers	on who lives on the	e International Spa	ce Station
	A st	ars, gas, and dust l	oound together by	gravity
	An e	expert in the study	of space and the u	niverse
		A task astronauts o	do outside a spaces	ship
		An object	orbiting a star	

D. Using the information in the presentation, fill in the gaps.

Discover	to find something for the first time to send something into space							
	to go on a journey somewhere far away to go around a planet or sun to look at something for a long time to search something to learn about it							
						Match the vocab to t	ho definition	
						pacewalk Astronomer	Astronaut	Planet
	A person who lives on the	International Sp	ace Station					
	A stars, gas, and dust bound together by gravity							
	An expert in the study of space and the universe A task astronauts do outside a spaceship							
Using the information	An object on in the presentation, fill in the	gaps.
