¿Cómo se llaman? Une cada polígono con su nombre

triángulo

cuadrado

pentágono

hexágono

EL PERÍMETRO

El perímetro es la suma de lo que miden los lados de un polígono.

Calcula es perímetro de las siguientes figuras.

$$P = 5 + 5 + 5 + 5 = \boxed{\quad} \text{ cm.}$$

$$P = \dots + \dots + \dots + \dots = \boxed{\quad} \text{ cm.}$$

$$P = \dots + \dots + \dots + \dots + \dots + \dots = \boxed{\quad} \text{ cm.}$$

$$P = \dots + \dots + \dots = \boxed{\quad} \text{ cm.}$$
