$$\square + 58 + 37 = \begin{array}{|c|c|} \hline \text{red} & \text{blue} \\ \hline \end{array}$$

Diagram illustrating the addition of 58 and 37. A red arrow points from the 8 in 58 to the first empty space in the box below, and a blue arrow points from the 7 in 37 to the second empty space. A blue arrow points from the 5 in 58 to the first empty space in the box below, and a red arrow points from the 3 in 37 to the second empty space.

(+)

$$\square + 27 + 65 = \begin{array}{|c|c|} \hline \text{red} & \text{blue} \\ \hline \end{array}$$

Diagram illustrating the addition of 27 and 65. A red arrow points from the 7 in 27 to the first empty space in the box below, and a blue arrow points from the 5 in 65 to the second empty space. A blue arrow points from the 2 in 27 to the first empty space in the box below, and a red arrow points from the 6 in 65 to the second empty space.

(+)

$$\square + 39 + 34 = \begin{array}{|c|c|} \hline \text{red} & \text{blue} \\ \hline \end{array}$$

Diagram illustrating the addition of 39 and 34. A red arrow points from the 9 in 39 to the first empty space in the box below, and a blue arrow points from the 4 in 34 to the second empty space. A blue arrow points from the 3 in 39 to the first empty space in the box below, and a red arrow points from the 3 in 34 to the second empty space.

(+)

$$\square + 57 + 36 = \begin{array}{|c|c|} \hline \text{red} & \text{blue} \\ \hline \end{array}$$

Diagram illustrating the addition of 57 and 36. A red arrow points from the 7 in 57 to the first empty space in the box below, and a blue arrow points from the 6 in 36 to the second empty space. A blue arrow points from the 5 in 57 to the first empty space in the box below, and a red arrow points from the 3 in 36 to the second empty space.
