

Know What the Parts of Multiplication and Division Are Called

Multiplication

$$4 \times 3 = 12$$

factors product

The diagram shows the equation $4 \times 3 = 12$. Two arrows point from the numbers 4 and 3 down to the word "factors". One arrow points from the number 12 down to the word "product".

Division

$$12 \div 3 = 4$$

dividend divisor quotient

The diagram shows the equation $12 \div 3 = 4$. The division symbol is green. Three arrows point from the numbers 12, 3, and 4 down to the words "dividend", "divisor", and "quotient" respectively.
